SUMMARY

Computer Science undergraduate with hands-on experience in developing full-stack web applications using modern web technologies. Strong foundation in data structures, object-oriented programming, and RESTful application development, with a commitment to continuous learning and building scalable software solutions.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, SQL, HTML5, CSS3

Frontend: React.js, Bootstrap

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MySQL

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming

PROJECTS

TrimTrack - Smart Salon Queue Management System | [Live Demo](#)

React.js, Node.js, Express.js, MongoDB, Socket.io

- Developed a full-stack web-based appointment booking system for barber shops to digitize queue management and reduce customer waiting time.
- Implemented core modules including customer booking portal, barber dashboard, live queue tracking, and authentication system.
- Used Socket.io for real-time queue updates between customers and barbers.
- Built REST APIs and integrated MongoDB for appointment and user data management.

Wanderlust – Mini Airbnb Clone | [Live Demo](#)

Node.js, Express.js, EJS, MongoDB

- Developed a full-stack web application with CRUD functionality for property listings, similar to a rental booking platform.
- Implemented authentication and dynamic server-side rendering using EJS templates.
- Designed RESTful routes and integrated MongoDB for efficient data storage and retrieval of user and listing information.
- Built responsive pages for viewing, adding, editing, and deleting listings.

AlmaLink - Alumni Management Platform | [Live Demo](#)

React.js, Node.js, Express.js, MongoDB

- Designed and developed a full-stack alumni management platform to strengthen connections between alumni, students, and institutions.
- Integrated modules such as job portal, networking hub, donation management, event coordination, and discussion forums to support community engagement.
- Built a scalable and user-friendly interface to streamline alumni interactions and provide career growth opportunities.

Spandan – Cultural Event Website | [Live Demo](#)

HTML, CSS, JavaScript

- Developed a responsive website for the annual college cultural event to showcase events, schedule, and event information.
- Implemented core sections including event listings, schedule display, and contact page for better user engagement.
- Collaborated on frontend development using reusable design structures.

EXTRACURRICULAR ACTIVITIES

Head – Competitive Team | Logicode Coding Club, TKIET

2025 - Present

- Lead and coordinate team activities including coding contests, practice sessions, and technical events.

Mentor | Codebyte Coding Club, TKIET

2024 - 2025

- Mentored 50+ students in C programming through hands-on sessions and doubt solving.

CERTIFICATIONS & ACHIEVEMENTS

- Web Development with HTML, CSS, JavaScript – IBM | Coursera
- Qualified GATE 2026– Computer Science (CS)
- Second Rank – Eureka & Jidnyasa 2K24 (National Level) | TKIET, Warananagar

EDUCATION

B.Tech in Computer Science and Engineering

2023 - 2027

Tatyasaheb Kore Institute of Engineering and Technology, Warananagar, Maharashtra | CGPA: 8.9/10.0
